**Listing of the claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Claims**

1. (Previously presented) A system for the creation and management of bookmarks relating to a location comprising:
  - a. a data server comprising:
    - i. processor means for processing data;
    - ii. means for encoding data elements relating to said location;
    - iii. means for storing said data elements on a storage medium;
    - iv. means for selectively accessing said data;
    - v. data transceiver means;
  - b. at least one user device comprising:
    - i. means for determining said location position;
    - ii. means for creating data elements relating to said location;
    - iii. data transceiver means.
  - c. a data communication network adapted to connect said user device to said data server.
2. (Previously presented) A system as claimed in claim 1 in which the data elements are adapted to contain data representations of:
  - a. the geographical position of the location; and
  - b. an identifier associated with the location.
3. (Previously presented) A system as claimed in claim 2 in which the geographical position data elements comprise:
  - a. the latitude associated with the location; and
  - b. the longitude associated with the location.

4. (Previously presented) A system as claimed in claim 2 wherein said identifier is one or more of the following:
  - a. a text;
  - b. a video recording;
  - c. an audio recording; and/or
  - d. an image.
5. (Previously presented) A system as claimed in claim 3 further comprising data elements which are adapted to contain data representations of the altitude associated with the location.
6. (Previously presented) A system as claimed in claim 4 further comprising data elements which are adapted to contain data representations of the identification of the author of the bookmark.
7. (Previously presented) A system as claimed in claim 6 further comprising data elements which are adapted to contain data representations of the accuracy of the data representations of the latitude, the longitude and the altitude.
8. (Previously presented) A system as claimed in claim 1 in which the data elements are adapted to contain data representations of:
  - a. the latitude associated with the location;
  - b. the longitude associated with the location;
  - c. an identifier associated with the location; and
  - d. the altitude associated with the location.
9. (Previously presented) A virtual location bookmark for use with a system as described in claim 1 in which the data elements are adapted to contain data representations of:
  - a. the geographical position of the location; and
  - b. an identifier associated with the location.
